Create new world

We create a new future with world-changing initiatives.
We create a great legend of success with world-changing passion.

TODAY

Now established around the world from unknown continents to splendid cities,
GS E&C is recognized as a top-notch construction company.

TOMORROW

Pioneering future territory and thereby advancing into the wider world,
GS E&C continues to make a new history for the global construction industry.

GREEN

Green technology upgrades the value of the Earth.
GS E&C leads the global growth in the five oceans and six continents.

SMART

Smart technology connects otherwise separated worlds.
GS E&C spearheads sustainable growth with
future-oriented technology.

CEO's Message

Aiming to be
a reliable
partner
on creativity
and passion

Our GS E&C has been constructing the world value with creative passion, through which GS E&C is aiming for 'Best Partner & First Company' which can gain reliability from all interested parties, such as customers, shareholders and society, etc.

GS E&C has made growth as the nation's best level construction company in all project areas, such as plant, power generation, environment, civil engineering, architecture and housing, etc. since its foundation in 1969.

This company is in pursuit of sustainable growth as a top priority, and doing its utmost effort to leap towards a full-scale Global Top Tier.

For this purpose, GS E&C is making a full preparation for securing Global core capabilities along with strategic nurturing of the new growth project, not to mention excellent performance at the existing major business.

Once again, I'd like to extend my heartfelt thanks to you for showing deep affection and concern for our GS E&C; hereupon, I sincerely promise that our company will be reborn as a sustainable, reliable Global GS E&C.

Thank you.

Lim Byeong Yong, President & CEO
GS Engineering & Construction

Endless Challenge

With endless initiatives and passions,
GS E&C goes beyond Korea's top toward the world top.

Our adventure into the world is not over yet.
Having taken its first step in 1969 and built on its top-tier human resources and top-notch technology, the company has continued innovative growth and success that surprises the world.

GS E&C now soars again with limitless passion toward next level.

GS E&C History

1970s

- 1969** Lackhee Development Co. (LDC) incorporated.
- 1975** Company name changed to Lucky development Co.
- 1977** Lucky International Construction Co. created.
- 1979** Merged with Lucky Overseas Construction Corp. Designated as Housing Contractor by the Ministry of Construction.

1980s

- 1981** Initial Public Offering.
- 1983** Joint venture company Lucky Development (Arabia) Ltd. establishe
- 1984** Honored with 1-Bil.-Dollar Export Tower in overseas construction. Lucky Development International Inc. (U.S.) established.
- 1986** Completion of the Lucky Dongrae Apartments.
- 1987** Completion of the Lucky Goldstar Twin Tower.
- 1988** Start of construction of the Lucky Goldstar North America Headquarters. Completion of the Iman University Sports Center. Company moves to Yeokjeon Building.
- 1989** Lucky Development Saipan Inc. established.

1990s

- 1990** Participates in the Soviet Union Development Project and the Construction Technology Research established. Gains construction license in Japan.
- 1991** Gains patent for mobile partition device for construction of variable walls.
- 1992** Accredited in construction of nuclear power plant by ASME (American Society of Mechanical Engineers). Lucky Thai Engineering & Construction Co., Ltd. established in Bangkok.
- 1993** Accredited ISO 98001 for international quality management. Gains KT (Korean new technology) Mark for "Korean Small/Mid Sized City Waste Incineration System." Signs MOU with China Construction Corp.
- 1994** Accredited ISO 14001 for environmental management. Gains KT (Korean new technology) Mark for "Korean Small/Mid Sized City Waste Incineration System." Signs MOU with China Construction Corp.
- 1995** Company name changed to LG Construction.
- 1996** Declaration of "Leap 2005". Accredited ISO 14001 for environmental management system.
- 1997** "LG Chemical Daeduck institution building" is awarded a grand prize of "Korea Construction Culture."
- 1998** "Koryo Forimer Bldg." honored with "98 Korea Architecture Awards." LG-HP SUNFLOWER INTERNATIONAL VILLAGE awarded the Vietnam Haiphong People Committee Award.
- 1999** LG Construction and LG Engineering merge.

1st decade of the new millennium

- 2000** "BIO-NET" sewage treatment method designated new technology by the Ministry of Construction and Transportation. Seohae Grand Bridge awarded the Presidential Citation. Selected as the Best Corporation in Management Structure by the Korean Stock Exchange.
- 2001** Honored with the Presidential Award on "Housing & Construction Day." The Korea Electric Power Culture Center honored with the 'Seoul Metropolitan City Architecture Award' The new apartment brand 'Xi' launched.
- 2002** Chosen as "Best Corporate Management Structure" by the Korea Stock Exchange. 'Xi' chosen as the No. 1 brand in the 2004 Consumer Well-Being Awards.
- 2003** Vision 2010 announced. Total market value reaches 1 trillion won. Enters the nuclear power plant business by being awarded construction of the "Shinwolsung Nuclear Power Plant No. 1 and 2.
- 2004** Corporate name changed to "GS Engineering & Construction Corp." Awarded the "Silver Tower Award" for the restoration of the Cheonggyecheon.
- 2005** Named world's 31st largest construction company out of 225 companies in 2006 by ENR magazine.
- 2006** Named world's 31st largest construction company out of 225 companies in 2007 by ENR magazine.
- 2007** Xi comes 1st in apartment category for 3 straight years in 2008 First Brand Grand Prize.
- 2008** Banpo Xi receives the Presidential Award in the 13th Livable Apartment Award. Boutique Monaco awarded the Grand Prize for the Private Sector during the Korean Architecture Awards. Time Square awarded Total Architecture Grand Prize in the 5th Korea Civil Works & Architecture Grand Prize.
- 2009**

2010s

- 2010** Admitted into Dow Jones Sustainability Index.
- 2011** GS E&C admitted into Dow Jones Sustainability Index in two straight years.
- 2012** Vision 2020 announced GS E&C takes over Spain-based Inima. Admitted into the Dow Jones Sustainability Index 3 years in a row & named the global leader in the construction & material supersector.
- 2013** Honored with the 1st Government Citation for Korea's Endearred Firm.
- 2014** The company building moved to Gran Seoul, Cheongjin-dong, Jongro-gu, Seoul. Wins the order for Clean Fuels Project, Kuwait at 4.8 billion dollars (1.6 billion dollars for the company). Wins the order for Karbala Project, Iraq at 6 billion dollars (2.3 billion dollars for the company).
- 2015** Wins the order for Pirital Gas Plant Project, Venezuela at 2.6 billion dollars. Listed on the DJSI (Dow Jones Sustainability Index) Asia-Pacific Index for 6 consecutive years. Named the 26th largest contractor out of top 250 global construction companies in 2015 by ENR magazine. Awarded a total champion of Singapore-based ASAC (Annual Safety Award Convention).
- 2016** Wins the order for T301, Singapore at 1.98 billion SGD. Signs an MOU for Phase 11 & 14 of Natural Gas Field Development Project in South Pars, Iran. Safety Innovation School opens in Singapore. Wins the order for Morupule B Phase II coal-fired thermoelectric power plant in Botswana.

Global Leader

As a global builder recognized by the whole world, GS E&C creates a sustainable future!

With global sustainable growth management, the company has written the best possible record.
Listed 7 years in a row in DJSI Asia Pacific, dubbed the indicator for good companies,
GS E&C has captured the honor of being named the world's 22nd construction company by
the US-based ENR magazine.

GS E&C raises the prestige of Korea in the world.

as selected by the US-based ENR,
a world-renowned construction magazine

World's **22nd**
construction company
(International Contract)

22 | 26 GS ENGINEERING & CONSTRUCTION, Seoul, S. Korea†

in Dow Jones Sustainability Index¹⁾
Asia Pacific

Listed **7** years in a row

1) Dow Jones Sustainability Index (DJSI): Co-hosted by the US-based Dow Jones Index and SAM, a Swiss sustainable management rater, it is a trusted index that culls global standard firms by assessing the financial performance and profitability (such as corporate governance and risk management), environmental quality (such as eco-friendly management), and sociality (such as HRD, corporate citizenship).

Strategic System

GS E&C aims to be a globally trusted partner and No. 1 company by creating values that enrich human life with creativity and passion.
Based on the three core values of change, best, and trust, the company fulfills its vision and realizes sustainable development.

Value Creator

Wondrous achievement with core resources and skills The status of GS E&C is proven with overwhelming figures!

Achievement through unparalleled performance draws worldwide attention.
Carrying on solid growth in areas of plant, civil engineering, construction and housing,
GS E&C presents a new paradigm in construction with its know-how that masses advanced technology.
GS E&C is creating highest values around the planet.

Global Network

Financial Highlight

As of Dec. 31, 2016 (unit: 100 mil. won)

Global Technology Leader

Changing the world with its incomparable technology,
GS E&C leads to a vibrant future through endless technological innovation!

Green Technology

High Technology

PreCon Service

Global Technology Leader

Green Technology

**Green growth leads the era of green growth.
We fosters our future viability with sustainable growth!**

Presenting a world-top eco-friendly energy solution,
GS E&C leads the era of low-carbon green growth with endless research and technology development.
With low cost and high efficiency as our motto, we present new technologies which the world needs.

Eco-Friendly and Low-Carbon Green Concert

It is the eco-friendly concrete making technology that cuts back carbon dioxide emissions by minimum 30% all the while maintaining the performance of conventional concrete.
It is an innovative solution that achieves both greenhouse gas reduction and cost-down.

- Continuously adopted for the matt foundation of apartments and other buildings.
- Minister of Environment's Award in Construction Environment Competition (2010).

Smart City Energy Management System (CEMS)

It is the optimized energy design technology that enables an early response to efficient energy projects increasing worldwide. Also, the fusion of ICT and electric power technology uses small amounts of energy to create greater effect.

- Gran Seoul, Xi The Express, Gran City Xi, Smart power transmission and conversion in Tanzania applying + DLC****
- Korea Institute of Civil Engineering and Building Technology (KICT) President's Award from Korea Federation of Construction Contractors (2016).

Automated Wastes Collection System (world's first)

It is an eco-friendly building-specific automated collection system that has adopted the world's first automated food packaging system and weight measurement.
Now freed from its dependence on overseas technology, the company has developed the eco-friendly technology.

- Continuously applied in new city development projects.
- A number of intellectual property rights and related design items registered.

Technology for designing an optimum combination of building heat source system and new & renewable energy

It is the technology that ensures an optimized combination of heat source system and new & renewable energy while taking into account building uses, size, load characteristics, and invested funds.

- Designs Hana Financial Group Data Center (2014).
- Daegu Bank (DGB) Data Center design under way (2016).
- National Assembly Land, Infrastructure and Transport Committee Chairperson's Award from KICT (2014).

Technology for Integrated Operation of Drinking Waterworks

The company has achieved its global competitiveness in the water industry growing worldwide. It is the technology for integrated operation and management of drinking waterworks that covers the entire process from raw water to consumers.

- Applied to water purification projects at home and abroad and its application eyed for drinking waterworks operation projects (w/GS-INIMA) at home and abroad.
- Best Environmental Technology Award from Korea Environmental Industry & Technology Institute (KEITI, 2014).

Technology for Saving Energy for Apartments

The technology is intended to respond to zero-energy apartment by 2025 required by the Korean government. It is an integrated technology that upgrades performance and decreases cost by adopting heating and water heating system improvement, diffusible LED light for underground parking etc.

- To be applied in apartments with district heating and local heating.
- Korean Association of Air-conditioning, Refrigerating and Sanitary Engineering (KARSE) President's Award (2015).

Global Technology Leader

High Technology

Advanced technology creates infrastructure.
With such innovative technology, GS E&C upgrades the nation's competitiveness!

Building hi-tech premium infrastructure around the globe,
GS E&C takes the lead in creating synergy through technological convergence and developing core technologies.
The company spreads around the planet its long-accumulated experience and know-how for advanced technology.

Yeongjong Island Magnetic Levitation Train

PSC Girder Technology

The PSC girder technology is specifically for bridges with a maximum height of 60m that has great applicability for infrastructure projects. The method boasts excellent price competitiveness with shallow depth and long span, road-rail bridge, curved PSC girder.

- Applicable for all roads, railroads, light rail bridges at home and abroad.
- Designated as New Construction Technology No. 781 and certified as Green Technology.

Pier Coping Pre-assembly Method

GS E&C's exclusive technology that boasts constructability and economy. The method represents an improvement on previous coping technologies that involved much work in high-altitude narrow spaces. A coping rebar net is pre-assembled on the ground before it is connected to the main rebars in the beams.

- Applicable in all coping operation, regardless of type and shape, for all roads and railroads at home and abroad.
- Citation from Korea Rail Network Authority (2011) and Minister of Construction and Transportation's Award (2006).

Offshore Structure

We own core technology for interpreting and designing the peculiarity of marine environment and underwater ground. Thus, the company provides technical solutions designed to ensure successful implementation of projects related to marine structures.

- Currently applied to Bahrain LNG Import Terminal Project.
- Paper published with International Society of Ocean Engineering.

Offshore Structure

Long-Hole Blast Drilling

With ample experience and know-how for tunnels and underground spaces, GS E&C continues its research to acquire future technology. It is a technology that integrates specialized solutions such as TSP (tunnel seismic profiling), SAV-CUT, and long-hole blast for drilling efficiency all the while ensuring stability in NATM tunnel drilling.

- Currently applied in most tunnels handled by GS E&C.
- Designated New Construction Technology No. 518 and registered as an IP.

Technology for Assessing Fire Hazards and Reducing Damage

Operating with a quantitative scenarios that incorporates fire occurrence, spread, detection, and evacuation, the technology assesses fire hazards involved in large-space structures. It is a package technology for fire safety that ensures optimized design of firefighting facilities.

- Applied in performance-focused design of fire-fighting systems for large-space structures, vehicle stations, and power plants at home and abroad.
- Designated New Construction Technology (2017).

Technology for Designing and Constructing LNG Plants

GS E&C now attacks the LNG plant market previously dominated by the five major companies (JGC, Chiyoda, Bechtel, Technip, KBR). For the technology, we have acquired resources and skills for design and independent execution of EPC through building a test bed.

- In March 2014, the company was the first Korean company to succeed in producing LNG from its natural gas liquefaction plant. The company's design package ensures its application to increasing small-to-medium LNG plants.
- 7 IP patents registered and a number of SCI papers published.

Constructing LNG Plants

Global Technology Leader

PreCon Service

PreCon Service changes the global construction practice.
Advanced system with transparency builds customer trust.

GS E&C's PreCon Service adopts order-placing mode specific to advanced countries to speed up project implementation and reduces construction costs. Increasing efficiency in construction projects, the advanced system lets project owner, designer, and builder share their know-how by forming a team from project planning to design. It boasts excellent efficiency as it precludes risks from design change with BIM (building information modeling) and ensures single-time monitoring of equipment & materials and manpower required in different stages.

Daegu Bank (DGB) Data Center (PreCon)

Plant

GS E&C is a deep root sustaining the world

GS E&C has grown into the nation's top plant construction company recognized by the world both nominally and virtually in the EPC sector of oil refining/gas and petrochemical industries. Our engineering and technical skills have been accumulated over many years.

We are continually achieving growth by making diverse efforts to enhance the network and to diversify business in major overseas areas while attempting to proactively advance into future business sectors by enhancing competence in the gas and LNG Liquefaction businesses.

Sohar Aromatics

• Location: Sohar, Oman • BTX 1,000,000 MTPY • Project period: 2006. 06 ~ 2009. 11

Petrochemical

Diverse experience of GS E&C has made it possible to establish GS petrochemical plants all over the world.

GS E&C has successfully carried out numerous petrochemical projects such as Ethylene, PP, Phenol/BPA, OCU and LG petrochemical in the Korea market as well as Lidong Aromatics, Thai ATC Aromatics, and HMC PP in the Asia market. Having demonstrated a wealth of experience in petrochemical plant construction GS E&C was awarded the 1.26 billion dollar Sohar Aromatics contract in Oman, the largest project within Oman in 2006. Successful completion of the project was made in 2010 with an impressive 1.8 million accident-free man hours. GS E&C looks to expand its business areas in to the Mideast Asia, Central and South America, CIS and Africa. Winning the Egyptian LAB project(E-Lab) has been a trigger point towards this goal.

001P **E-LAB**
Location: Alexandria, Egypt
- Linear Alkyl Benzene 100,000 MTPY
Project period: 2006. 02 ~ 2008. 07

Location: Map Ta Phut, Thailand
- Para Xylene 565,000 MTPY
- Benzene 301,000 MTPY
- Toluene 60,000 MTPY
Project period: 2005. 08 ~ 2008. 10

Oil & Gas

Our ongoing efforts in the Oil & Gas Plant field were finally crowned with successful penetration into the world market, earning a world-class reputation all over the globe.

GS E&C was able to accumulate extensive knowledge in the upgrading of internal facilities with the execution of the GS-Caltex RFCC project in the early 2000s and the No. 2 ~ 3 HOU since the mid-2000s. This Corporation has not only strengthened fundamental skills in the oil sector, but has also branched out into the gas sector with the LNG Terminal in Tongyoung, Incheon, and Pyeongtaek, Korea.

GS E&C has built up its overseas experience in Azerbaijan/Thailand/Qatar from the early 1990s, and showed impressive execution, a reliable corporation image and the capability to manage large scale projects such as SP 9 ~ 10 in Iran, Green Diesel in UAE, PTT LNG in Thailand, and Manifa in Saudi.

GS E&C was awarded 2.18 Billion USD contract in 2009 to build natural gas separation facilities in the UAE, which is called the GASCO 4th NGL, and completed successfully in 2014.

Our confidence and effective strategies in carrying out large-scale gas projects and the bright prospects seen in our emergence into the gas sector are the byproduct of our outstanding record.

Waste Treatment & Recycling

The harmonization of state-of-the-art technology with the bounty of Nature

GS E&C is the best construction performer in Korea in the area of waste burning disposal facilities and this is demonstrated by the construction of the Mapo Recycling facilities, the Masan city Resource Recovery Facilities, and the Cheongju area incineration facilities.

In the area of industrial wastes incineration, our company's advanced technologies were recognized in the successful completion of waste burning facilities project at the LG Philips LCD factory.

In this way, GS E&C is securing differentiated competitiveness in the waste disposal and recycling sectors as seen in our roles at the Jungrang Sewage Sludge Treatment Facilities, Capital Area Landfill No. 1 Stabilization Construction, Food Wastes Resource Facilities in Namdong-gu in Incheon and the Capital Area Home Appliances Recycling Center.

- Incineration plant: 200 ton/day
- Stoker type
Project period: 2008. 07 ~ 2011. 04

033P **Masan Municipal Solid Waste Treatment Plant**

Location: Masan, Korea
- Incineration plant: 200 ton/day
- Stoker type
Project period: 2006. 09 ~ 2009. 09

035P **Hwaseong Municipal Solid Waste Treatment Plant**

Location: Hwaseong, Korea
- Capacity: 200 ton/day
- Pyrolysis melting type
Project period: 2007. 04 ~ 2011. 08

036P **Eunpyung MSW Management System**

Location: Seoul, Korea
- Capacity: 48ton/day, Pyrolysis melting type
- MSW Automation Collecting pipe: 29.1km
Project period: 2006. 10 ~ 2009. 10

Water Treatment & Seawater Desalination

GS with Technology that Safeguards Nature and People

With its advanced technology and diverse work experiences, GS E&C leads the Korean market for sewage treatment and wastewater treatment. The company now expands its area of operation into facility upgrade and advanced treatment as instanced in Osan Sewage Treatment Facility, Jeonju Advanced Sewage Treatment Facility, and Jungrang Water Regeneration Center Advanced Treatment Facility.

Also, the company cuts a figure in optimized design and construction of environmental facilities such as water treatment facilities related to LG Philips LCD plant.

Furthermore, by acquiring GS Inima, the world's first seawater desalinization company, GS E&C now basks in great customer trust and affection as a global player in water treatment by expanding its business operation in SWRO/BWRO and advancing overseas to handle BAPCO wastewater treatment facility in Bahrain and Azzour water transmission facilities in Huwait.

037P Jeju Advanced Sewage treatment plant

Location: Jeju, Korea
 - Advanced Sewage Treatment: 130,000m³/day
 - CNR Process
 Project period: 2006. 09 ~ 2009. 05

038P BAPCO Wastewater Treatment Plant

Location: BAPCO Refinery Plant Area, Bahrain
 - MBR process applied, 24,000m³/d WWTP
 - Dismantlement of existing Sulfur Pelletizing Plant and its access road
 Project period: 2010. 09. 30 ~ 2015. 06. 15

039P Jeonju Advanced Sewage treatment plant

Location: Jeonju, Korea
 - Advanced Sewage Treatment: 303,000/day
 - CNR Process
 Project period: 2004. 10 ~ 2007. 06

040P Osan Sewage Treatment Plant(Unit #2)

Location: Osan, Korea
 - Sewage Treatment: 64,000m³/day
 - B3 Process
 - Sewage Recycling pump: 52,000m³/day
 Project period: 2005. 08 ~ 2009. 08

041P Yeosu Sewage treatment plant

Location: Yeosu, Korea
 - Sewage Treatment: 35,000m³/day
 - MLEProcess
 Project period: 2005. 09 ~ 2008. 04

042P LG.Philips LCD P7 (Environmental facility)

Location: Paju, Korea
 - Wastewater Treatment: 51,000m³/day
 - Wastewater Recycling: 18,000m³/day
 - Water Treatment: 40,000m³/day
 - Deionization System: 2,400m³/hr
 Project period: 2004. 03 ~ 2006. 10

043P Ilsan Advanced Sewage treatment plant

Location: Goyang, Korea
 - Advanced Sewage Treatment: 270,000m³/day
 - MLEProcess
 Project period: 2006. 12 ~ 2009. 12

044P Jungang Advanced Sewage treatment plant

Location: Seoul, Korea
 - Advanced Sewage Treatment: 880,000m³/day
 Project period: 2009. 02 ~ 2014. 01

045P **Ribeiro Preto Wastewater Treatment Plant**
Location : So Paulo, Brazil
- 150,000 m³/d WWTP

046P **Los Cabos Desalination Plant**
Location : Cape San Lucas, Baja California, Mexico
- 20,736m³/d SWRO Desalination Plant

047P **Vigo Wastewater Treatment Plant**
Location : Vigo, Spain
- 230,668m³/d WWTP

048P **Mostaganen Desalination Plant**
Location : Mostaganen, Algeria
- 200,000m³/d SWRO Desalination Plant

Architecture

GS E&C's urban aesthetics is changing landscapes around the world

The construction of a building is not merely the creation of a structure but the creation of a new history. GS E&C has created a beautiful and practical base of life and will make history with new constructions that balance high-tech function and formative art.

IFC Seoul

• Location: Seoul, Korea • Total floor area 509,524㎡ • B7 ~ 55F • Project period: 2008. 01 ~ 2011. 12

Office Building

True landmarks that change the skyline of a city

The office buildings constructed by GS E&C are not mere facilities for work but landmarks comprising the image of a city. They also show the character and competitiveness of the tenant companies. With our refined technology and extensive experience, GS E&C is building high-tech intelligent buildings equipped with convenient functional aesthetics, differentiated designs and superior construction. World-class office buildings such as the GS Tower, COEX Convention Center, ASEM Tower and Seoul Central Post Office have become representative landmarks in Seoul. Internationally, we have built the LG Beijing Tower which reveals the superior technological powers of GS E&C to the world. Currently GS E&C is focusing our capabilities on the construction of high-tech buildings that integrate state-of-the-art technologies with businesses by reinforcing our abilities for the planning, constructing and engineering of modern high-rises.

001A Parnas Tower

Location: Seoul, Korea

Project Period: 2010. 10 ~ 2013. 07

Culture, Leisure & Sports

A beautiful space upgrading quality of life

GS E&C has applied its differentiated technological power in our numerous achievements in the construction of composite facilities that combine culture, leisure and sports. We provide cultural facilities, luxury hotels, leisure facilities and sports complexes that can accommodate cultural and artistic events. GS E&C has built facilities of living culture located in the local governments of Changwon, Masan, Wonju, and Jinju, Korea. Time Square was created as the landmark of Yongdeungpo. The LG Art Center was lauded for its ideal arrangement of seating and stage, and the main stadium of Imam University in Saudi Arabia stand as sterling examples.

021A LG Art center

Location: Seoul, Korea
 - Total floor area 18,713m²
 - 9F
 Project period: 1994. 12 ~ 1999. 08

022A Gimhae Cultural Center

Location: Gimhae, Korea
 - Total floor area 43,750m²
 - B2 ~ 7F
 Project period: 2001. 11 ~ 2005. 11

023A KEPCO Cultural Center

Location: Seoul, Korea
 - Total floor area 70,602m²
 - B1 ~ 17F
 Project period: 1996. 09 ~ 2001. 04

024A **COEX Convention Center & ASEM Tower**

Location: Seoul, Korea
- Total floor area 554,631 m²
- B4 ~ 41F
Project period: 1997. 03 ~ 1999. 12

025A **Health Center & Sports Area in Imam University**

Location: Riyadh, Saudi Arabia
- Total floor area 136,110m²
- Main stadium / Gymnasium
Project period: 1984. 05 ~ 1997. 06

026A **Masan 3.15 Cultural Center**

Location: Masan, Korea
- Total floor area 19,812m²
- B1 ~ 3F
Project period: 2005. 06 ~ 2008. 03

027A **National Museum of Korea**

Location: Seoul, Korea
- Total floor area 134,560m²
- B1 ~ 6F
Project period: 1997. 10 ~ 2004. 02

Clean Rooms & Manufacturing Facilities

State-of-the-art technology to improve company productivity

GS E&C has unparalleled technological capability in special production facilities such as LCD, PDP, semi-conductors and pharmaceuticals. We also have the best technological power and performance in the industry in the construction of clean rooms. Clean rooms are core technology for factories producing super-precision products. GS E&C build Industrial as well as Biological Clean Rooms essential to the production of pharmaceutical products. The company is now expanding its business areas at home and abroad through the successful implementation of large scale projects including the display production lines at the LG Display industrial complex, the factories of secondary battery and polarizing plates, and the production facilities of the GMP factories of pharmaceutical companies.

028A PLS Pyeongtaek PDI Logistics Center

Location: Pyeongtaek Korea
 - Total floor area 20,895m²
 Project period: 2010. 09 ~ 2011. 05

029A Yuhan Pharmaceutical Corp. Ochang Factory

Location: Ochang, Korea
 - Total floor area 54,420m²
 - B1 ~ 4F
 Project period: 2004. 02 ~ 2006. 02

030A LG display Paju LCD Cluster (P7, P8)

Location: Paju, Korea
 P7 - Total floor area 668,547m² / B2 ~ 7F
 P8 - Total floor area 519,126m² / B4 ~ 9F
 Project period: 2004. 03 ~ 2008. 08

Commercial Facility

The magic of architecture can increase the value of the building

GS E&C is leading logistics and remodeling sectors with superior specialty manpower, excellent planning ability, innovative design, perfect construction work and thorough maintenance and services. GS E&C has successfully completed Block A of the Southeastern Distribution Complex; the largest distribution complex in Korea, and many other large logistic facilities. In addition, the company has extensive experience in remodeling projects including the Samcheonggak, Yongsan Electronics Land and the Export-Import bank of Korea. GS E&C is doing its utmost to maximize customer values by establishing a total solution system that covers the entire life cycle of a building including construction, structural diagnostics and post management.

- B5 ~ 20F
Project period: 2006. 06 ~ 2009. 05

033A **Garden 5**
Location: Seoul, Korea
- Total floor area 426,743m²
- B5 ~ 11F
Project period: 2006. 10 ~ 2009. 03

Apartments

High class apartment complexes that take the lead in high-quality residential culture.

GS E&C began to construct apartments nationwide in the 1970s, and we are the leader of the housing industry and residential culture in Korea. 2002, the company undertook a new challenge to become the No. 1 Construction developer in the housing market by introducing a new brand 'Xi'. Xi has become the brand name for the best luxury apartments in Korea and by releasing our best technical skills in the business agency we are providing a higher level of living space. These are the spaces to be envied by all and reflect our fundamental philosophy of grasping customer trends in advance to create a new and better lifestyle. Also, this corporation is leading the housing culture of the next generation by materializing its high-tech energy conservation technologies through Green Smart Xi, an environment-friendly, energy-saving housing design. We have received the most awards in both from national and international in the business world in sectors such as brand competence, customer satisfaction and service from many external organizations including JMAC, JMAM and are winning recognition for our high brand power. GS E&C has supplied apartments to all major cities in Korea including Seoul, Yongin, Suwon, Daejeon, Daegu, Busan and Gwangju and also is showing excellent performance in the reconstruction and redevelopment field. GS E&C will continue to create the residential culture of the future and foster the most desired apartment brand through endless technical innovation and R&D.

Xi, the top class apartment brand in Korea | Symbolizing 'special intellect' as an abbreviation for eXtra Intelligent, Xi symbolizes top quality apartments for the most discerning customer. Xi is a value oriented high class space created in consideration of its residential values and sensibility. It is a space that goes beyond the simple concept of what a residence should be. GS E&C is providing new space concepts and creating new value that encompasses aesthetic appreciation, culture and ultramodern design. We always consider our customer as special and worthy of consideration and the utmost in service. We are leading high class residential culture by providing a luxurious lifestyle and a higher level of cultural experience.

 - Total Capacity of 2,050MW
 - (GT 4 Units + HRSG 4 Units + ST 1 Unit) x 2 blocks
 Project period: 2012. 05 ~

006P **GS EPS LNG Combined Cycle Power Plant(Unit 2)**

Location: Bugok, Korea
 - Total 550MW
 - GasTurbine180MW×2
 - Steam Turbine190MW×1
 Project period: 2005. 12 ~ 2008. 03

010P **Yerevan Combined Cycle Power Plant**
Location: Yerevan, Armenia
- Total 230MW
- Gas Turbine 167MW×1 - Steam Turbine 63MW×1
Project period: 2007. 12 ~ 2010. 04

011P **Shin-Wolsong Nuclear Power Plant(Unit1 & 2)**

Location: Gyeongju, Korea
- 1,000MW×2
Project period: 2003. 07 ~ 2013. 01

012P **Shin-Hanul Nuclear Power Plant (Unit 1 & 2)**

Location: Uljin, Korea
- 1,400MW×2
Project period: 2010. 04 ~ 2017. 04

013P **Youngheung Wind Power Center**

Location: Incheon, Korea
- Total 20MW
Project period: 2010. 01 ~ 2011. 07

T/L & Substation

Light that creates a bright
and heart-warming world

In T&D Business, GS E&C has successfully completed construction projects including transmission lines, substations, railway E&M and communication. We have secured global competence with accumulated knowledge, and this has led to 400kV Power Transmission project in Bangladesh, 380kV IRRQAA Power Transmission line project in Saudi Arabia and 220kV Substation Project in Tanzania. In this way, our company is making our move to emerge as a global top tier company in the overseas power transmission and substation EPC markets as well as the railway E&M sectors at home and abroad.

We are also taking the initiative in providing total solutions in the IT sector as a leading company in the ITS and U-City sectors as demonstrated in the belt highway ITS on the outskirts of Seoul, the ITS between Cheonan and Nonsan and U-City in Ilsan.

014P IRRQAA 380kV Transmission Line Project

Location: Riyadh, Saudi Arabia
- Transmission: 380kV 225km
- Steel Tower 621 Set
Project period: 2013. 10 ~ 2015. 11

015P Bibiyana ~ Kaliakoir 400kV Transmission Line Project

Location: Bibiyana~Kaliakoir, Bangladesh
- 400kV Transmission Line 170km(2 Line)
- Steel Tower 410 Set
Project period: 2012. 01 ~ 2015. 07

016P 154kV & 345KV Substation at Paju LCD Complex Project

Location: Paju, Korea
- 345kV GIS Substation
- 154kV GIS Substation
Project period: 2004. 03 ~ 2009. 03

017P 345kV Underground Transmission Line Project

Location: Paju, Korea
EPC Turn Key : - 345kV Underground Cable: 4.1km
- 345kV OHTL: 1.16km (Tower 4 Set)
- 154kV OHTL: 0.3km (Tower 2 Set)
Project period: 2008. 10 ~ 2011. 11

018P 220V Iringa Substation (Tanzania)

Location: Iringa & Dodoma & Shinyanga, Tanzania
Installation & Expansion for 4 Units of 220kV Substation
Project period: 2004. 03 ~ 2009. 03

Infra

GS E&C, the beginning and the fundamental of Infrastructure

As a global leading contractor, GS E&C has been accomplishing creative missions around the world with our wide experience and superior capability. As dots become a line, and lines become a plane, we will continue to strive for creation of more valuable places for the world.

Mokpo Grand Bridge

• Location: Mokpo, Korea • Total Length 4.1km • Cable-Stayed Bridge 900m
• 4 Lanes • Project period: 2004. 11 ~ 2012. 12

Bridges, Airports, Ports

DOT - A starting point,

the key element to expand the prospect
of human life

Bridges, airports, ports are the starting points of connecting each different location. They are the core elements that overcome human limitations and expand the prospect of human life. For a long time, GS E&C has been accumulating a plenty of construction experience in the lands of mountain, river, and sea. Based on such diverse experience, we always strive to make human life better in every corner of the world.

001_I Baekseok Bridge

Location: Incheon, Korea
- Cable-Stayed Bridge 750m
Project period: 2010. 04 ~ 2012. 06

002_I Yeosu Grand Bridge

Location: Yeosu, Korea
- Total Length 1.95km
- 4 Lanes
Project period: 2007. 11 ~ 2012. 10

003_I Seohae Grand Bridge

Location: Dangjin, Korea
- Total Length 4.08km
- 6 Lanes
Project period: 1993. 11 ~ 2000. 12

004_I

004_I **Vam Cong Bridge Construction Project**

Location: VamCong, Vietnam
 - Total Length 2.97km
 - Cable-Stayed Bridge 870m
 - 4 Lanes
 Project period: 2004. 11 ~ 2017. 11

006_I

005_I

005_I **Gyeongin Ara Waterway Section No. 3 Bridge**

Location: Incheon, Korea
 - Bridge Length 1.1Km (PSC Box Girder)
 Project period: 2009. 06 ~ 2011. 12

006_I **2nd Namhae Grand Bridge**

Location: Gohyeon, Korea
 - Total Length 3.1km, 4 Lanes
 - Suspension Bridge 990m
 Project period: 2009. 10 ~ 2018. 06

010_I

**010_I Incheon LPG Unloading
Facilities**

Location: Incheon, Korea
- Berth Facility: 55,000 DWT
Project period: 1996. 12 ~ 2000. 05

**011_I Pohang-Yeungilman Port
South breakwater
Construction**

Location: Pohang, Korea
- Concrete-Caisson Breakwater 500m
(14 blocks, 112,000ton)
Project period: 2011. 06 ~ 2013. 11

Roads, Railways, Subways

LINE - A path to connect space, the expansion of the route by connecting countless lines

Where there is a road, life becomes richer and culture gets more developed. GS E&C is very proud of its long time accomplishment of the sophisticated road networks and the world-class high-tech subways (underground area) in Seoul Metropolitan City, the 6th largest cosmopolitan city in the world. Our cutting edge technology and know-how are once again evidenced in the constructions of the subways and stations in the countries like Singapore, Vietnam, and Qatar. Such technology and know-how will be our valuable assets to make us the leading contractor to construct the transcontinental railroads to connect Korea, Russia, and Europe for the 'Era Of Eurasia'.

012 Seoul-Busan High Speed Railway

Location: Okcheon, Korea
- Total Length 12.25km
- Double Track 3.59km
Project period: 1999. 05 ~ 2002. 11

013 Uijeongbu Light Railway Transit

Location: Uijeongbu, Korea
- Total Length 11.1km
- 15 Stations, 1 Depot
Project period: 2007. 08 ~ 2011. 07

014 Thomson-East Coast Line Contract T301

Location: Changi, Singapore
- Area: 480,000m²
- Rail Depot: 24ha, 3 stories
- Bus Depot: 6ha, 4 stories
- Tunnel: 1.25km
- Construction Period: 2016. 03 ~ 2024. 02

015 Electrified Double Track Railway in Jungang Line (Cheongnyangri-Deokso Sec.)

Location: Namyangju, Korea
- Total Length 9.5km, 15 Bridges(1.97km)
- 4 Stations
Project period: 1997. 10 ~ 2006. 06

016 Yeongjong Island Magnetic Levitation Train

Location: Incheon, Korea
- PSC BOX Girder: 6.11km
- 6 Stations, 1 Depot

Leisure

GS E&C is a green space providing a respite for the world

Competitive in the construction of leisure facilities both at home and abroad, GS E&C is offering the leisure of life and joy through the construction of amazing new leisure facilities such as the Gonjiam CC and its dynamic courses as well as the Gangchon CC, Elysian CC, Grand Intercontinental Seoul, COEX Intercontinental Seoul and the Elysian Gangchon.

Elysian Jeju

• Location: Jeju, Korea • Lot area: 1,752,074m² • Project area: 1,586,784m²
• Main Facilities: Golf course/Club house • Project period: 2002. 11 ~ 2005. 07

Resorts & Golf Courses & Hotels

Leisure of life, joy and rest

A new turning point has come in the leisure industry with improvement in living standards and the shortening workweek. GS E&C has secured competitiveness in leisure areas by accumulating extensive experience in the construction of leisure facilities such as resorts, golf courses and hotels throughout Korea and abroad. GS E&C has constructed famous golf courses including the Gonjam Country Club and the Elysian Gangchon Country Club loved by golfers for its challenging holes and unique layout,. After achieving fame with the construction of the COEX Intercontinental Seoul and the Ladera Tower in Guam, GS E&C built the Grand Intercontinental Seoul firmly establishing its reputation in hotel construction. In addition, the company is securing composite capabilities for resort facilities from construction to management with the Elysian Jeju and the Elysian Gangchon which are now gaining popularity as 4-season composite family recreation resorts with condominiums, golf courses, ski slopes and many amenities.

001L Alpensia Resort

Location: Pyeongchang, Korea
 - Total area: 151,800m²
 - Main Facilities: Hotel/Condominium/ Water park
 Project period: 2007. 01 ~ 2010. 12

002L Elysian Gangchon

Location: Kwangwondo, Korea
 - Total area: 60,615m²
 - Main Facilities: Golf course/
 Ski course/Condominium
 Project period: 1999. 11 ~ 2002. 11
